Pickering Airport	Toronto, Canada
Toronto Pearson International Airport	Toronto, Canada
Mexico City International Airport	Mexico City, Mexico
Cordoba International Airport	Cordoba, Argentina
Simon Bolivar International Airport	Caracas, Venezuela

# CAPABILITY

MM Systems Corporation provides the necessary estimating, sales and engineering support for over 3000 expansion joint projects per year. Our recent relocation and expansion will accommodate the significant anticipated growth called for in our long-range strategic planning.

MM Systems has built a service team to respond to the demands of today's design-build construction market place.

## **The Service Team Includes:**

- ◆ Estimating Services
- ◆ Engineering & Cad Design Services
- ◆ Customer Service & Order Management
- ◆ Project Management Department
- ◆ Production Scheduling & Inventory Control
- ◆ Technical Field Service Department

# Technical Credentials and Qualifications

Our capable and experienced Engineering and Manufacturing staff:

- Conduct AIA continuing education for architects, professional engineers, fire authorities and building officials
- Certify and train installers of our products

- Provide field supervision to ensure proper techniques are used
- Manage material procurement
- Calculate specific load applications to ensure safety of pedestrians
- Conduct quality assurance inspections of fabricated products

- Produce and fabricate several thousand projects per year
- Design, develop, and fabricate life safety products
- Develop creative and practical solutions to construction requirements

- Architectural Design Assistance for project requirements
- Architectural Specifications for project requirements
- Produce comprehensive technical drawing submittals

## MANUFACTURING FACILITIES

After nearly 4 decades of steady growth and plant additions, MM Systems Corporation outgrew its manufacturing facility in suburban Atlanta.

### Atlanta Based Manufacturing Campus

In 2001, our office and plant operations were consolidated into a new state-of-the-art manufacturing, research and administrative facility in Pendergrass, GA, less than one-half hour from suburban Atlanta. This new facility was designed not only for today's capacity, but tomorrow's as well.

With a generous campus and structures designed to accommodate expansion, MM Systems is poised for growth and efficiency for decades to come.

The campus contains production facilities for:

- ◆ **EJP – Exterior / Parking Expansion Joints**
- ◆ **EJA – Seismic and Architectural Expansion Joints**
- ◆ **AM - Architectural Metalwork**
- ◆ **TA – Trench Grating & Access Covers.**
- ◆ **Research & Development**

## CAPACITY & DELIVERY LEAD TIMES

Our Distribution Center and Manufacturing Facility position MM Systems to respond quickly to the challenging demands of the world-wide construction market place. Most raw materials are carried in inventory allowing MM to meet the rapid demands of today's fast-paced construction cycles.

MM Systems has developed a campus of production facilities to respond to the demands of today's design-build construction market place.

### The Production Facilities Includes:

- ◆ **Primary Manufacturing Plant**
- ◆ **Warehousing and Distribution Center**
- ◆ **Fire Barrier Manufacturing Facility**
- ◆ **Kynar® 500 / Hylar® 5000 Finishing Facility**
- ◆ **Administrative Offices**

We strive to earn with each new project the accolade of the “**Can Do**” company.

since  
**MM Systems Corporation**  
1960

# MM PRODUCT LINES

**EXPANSION JOINTS / PARKING & STADIUMS** – High performance joint sealing systems designed to meet the rigorous demands of parking structures, stadiums and other open-air structures. Engineered options include systems that are waterproof, fire-rated, ADA compliant, and capable of thermal, shear and seismic movement.

**EXPANSION JOINTS / ARCHITECTURAL** – Aesthetics, innovation and durability are the hallmark of MM's line of floor, wall, ceiling and roof joint cover systems. Engineered systems include features that are ADA compliant, fire-rated, no-bump and heavy-load designs capable of thermal, seismic and wind-sway movement.

**ARCHITECTURAL METALWORK** - Engineered and fabricated to exacting tolerances, architectural metalwork by MM is available in a variety of materials and finishes. Column covers, beam wraps, light coves, sun screens or your unique designs become signature elements of your project. Choose from unlimited Kynar 500® / Hylar 5000® color coatings.

**TRENCH GRATING & ACCESS COVERS** – ADA compliant grating and trench cover systems. Decorative gratings offer an architectural alternative to traditional cast-iron gratings and are ideal for pool and plaza decks, green spaces and fountain surrounds. Removable access covers allow access to in-floor electrical and refrigeration services. Optional trench liners provide an exit path for moisture.

# OUR MISSION

We proudly remind our customers that MM is a world-class manufacturer with the people and determination to meet any project requirements anytime, anywhere in the world. We accomplish this through our:

## **VALUES**

*We believe in treating every company we do business with the same way that we would wish to be treated. We do this through our core values by constantly striving for and maintaining:*

## **CAPABILITY**

*State-of-the-art research, testing and manufacturing facilities to support and serve the needs of project designers and contractors.*

## **CRAFTSMANSHIP OF ANOTHER ERA**

*Quality and attention to detail from design through installation and inspection. Each completed project is our best form of advertising.*

## **FLEXIBILITY**

*Design solutions tailored to meet your unique project requirements rather than the cookie cutter approach offered by others.*

## **QUALITY ASSURANCE**

*Technical support provided with skill and commitment through field technicians, local representatives, a certified contractor network and the strongest joint-and-several warranty in the industry.*

## **IMAGINATION**

Consider us old-fashioned, but MM believes that customers deserve more than a cookie-cutter approach to their needs. Each project is unique and requires individual attention tailored to its needs. We are committed to using our considerable experience to provide:

## **TOTAL ENGINEERED SOLUTIONS**

*Offer reliable and accurate engineering services at no charge...including design consultation, budget development, AutoCAD drawings.*

## **PROBLEM SOLVING**

We strive to earn with each new project the accolade of being the "Can Do!" company.

Forging the Products of your Imagination

***Heritage, Values and Imagination: The MM Way... May we serve you?***
