New for 2009

Steri-guard: Hidden Mechanical Fasteners

CRS-100 Stainless Steel Steri-Guard® is now available with hidden fasteners that provide easily maintained, indestructible protection for labs or hospitals. Optional factory applied hardware does not penetrate the exposed surface of the crash rail. Used with standard mounting brackets, this option provides an even smoother and cleaner installation with the same durability and strength. Also available on CRA-100 aluminum crash rails, this optional hardware system may be used in place of adhesive mounting to provide the reliability of mechanical fasteners without an exposed fastener.

Pawling's New Foundation Series

Pawling's new Foundation™ Series handrail offers the Architect and Designer the versatility and flexibility to "build" the look they desire by selecting from a variety of shapes and materials to be featured on a versatile powder coated metal bracket. Combine a round or oval handgrip in real wood or vinyl with a 4" bumper guard in real wood, vinyl, or stainless steel to provide superior functionality and impact protection in a wide range of aesthetics within hospitals, nursing homes, offices, and all types of different facilities. The Foundation Series offers Pawling's outstanding excellence in performance, design, and functionality.

1 | Handrails

Pro-Tek® handrails offer a wide variety of styles, colors and materials for all types of facilities, applications and budgets. A near endless list of product options including vinyl, all wood, or a combination of the two, grooved surfaces, 60 standard colors and custom color matching–allow for an incredible wealth of design possibilities. The only limitation is a designer's imagination. In addition, many styles also feature a continuous security bracket for high-risk environments.

RR Rapid Response   **RC** Red-E-Clip   **60** Standard 60 Colors   ♢ Uses Recycled Materials
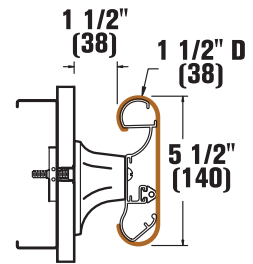

BR-530 / BR-532 / BR-530X / BR-530G

Our Endura Rail features the only aluminum reinforced return in the industry. Also available with a 2-1/4" co-extruded accent stripe (BR-532), co-extruded accent lines (BR-530X), or horizontal grooves (BR-530G), this series combines a nearly indestructible handrail with design flexibility.

Product Code	Dimensions	Colors	Protection Level	Continuous Security Bracket
BR-530	1-1/2"D x 5-1/2"H	◆	Heavy	Yes
BR-532	1-1/2"D x 5-1/2"H	◆	Heavy	Yes
BR-530X	1-1/2"D x 5-1/2"H	◆	Heavy	Yes
BR-530G	1-1/2"D x 5-1/2"H	◆	Heavy	Yes

Thick wall configuration — Durable aluminum reinforced insert return

A beautiful wood handrail/crash rail system with a flexible bumper for added protection. Four species of wood, each in six standard stain colors, 12 standard bumper colors and limit-less custom colors.

1 1/2" (38)   1 1/2" D (38)   5 1/2" (140)

2 | Wall Guards

Pro-Tek® wall guards run the gamut of sizes, shapes, colors and styles. In addition to our unique ability to protect all areas of any facility, the design flexibility of these products is limitless. We offer outstanding protection from all types of abuse, thus dramatically reducing maintenance and repair expenses. Choose from rectangular or curved profiles, many with design options such as grooved surfaces, 60 standard colors and custom color matching. And our Red-E-Clip® installation option will stretch your budget by using a lightweight yet equally durable product that installs more quickly and easily than traditional aluminum retainers.

RR Rapid Response   **RC** Red-E-Clip   **60** Standard 60 Colors   ✜ Uses Recycled Materials

3 | Wall Covering

Pro-Tek® vinyl wall covering can be suited for a broad range of applications, from corridor wainscot and patient room walls, to back-of-house areas and slop sink backsplashes. Or it can simply be used as a finishing touch to complete a unified presentation in wall protection system designs. From the thinnest .030" gauge to our indestructible .125" sheet, used at wainscot height or full wall height, our wall covering can protect your walls, doors and cabinetry in any facility, and any application, all while providing added texture and color to whatever design scheme you choose. Available in a myriad of sheet sizes and rolls, 60 standard colors, and any custom color you can dream of, Pro-Tek® wall covering has the versatility to serve your needs.

4 | Corner Guards

Pawling's line of corner guards leads the industry in its breadth of application, with suitable options for protecting every type of facility and every application. Whether for a healthcare, educational, municipal or commercial building, you can rely on Pawling's Pro-Tek® corner guards to protect your building from front to back. Choose from flush-mounted or surface-mounted corner guards with styles including vinyl retainers, rigid vinyl, polycarbonate, stainless steel, aluminum, rubber and recycled HDPE (see our Heavy-Duty Impact Protection options for the latter two products). Most styles are available in multiple sizes, angles, and colors for perfect coordination with the rest of our impact protection product line.

FLUSH MOUNTED–NON-RATED

CG-7
CG-72

Product Code	Colors	Wing Dimension	Corner Protection	Style	Cove-base Installation/ Aluminum Insert
CG-7	◆	3"	Med.-Heavy	90°	Yes
CG-72	◆	2"	Med.-Heavy	90°	Yes

Standard angles for our 3" and 2" wing corner guards are 90°,but we will custom fabricate flush-mounted corner guard to any angle required from 45° to 160°.

CG-7S
CG-72S

Product Code	Colors	Wing Dimension	Corner Protection	Style	Cove-base Installation/ Aluminum Insert
CG-7S	Stainless Steel	3"	Heavy	90°	Yes
CG-72S	Stainless Steel	2"	Heavy	90°	Yes

Flush mounted stainless steel corner guard. A perfect pair is our Steri-guard (CRS-100).
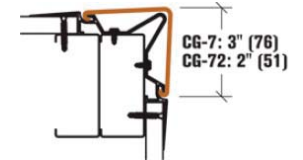

CG-75

Product Code	Colors	Wing Dimension	Corner Protection	Style	Cove-base Installation/ Aluminum Insert
CG-75	◆	3"	Med.-Heavy	135°	Yes

Offers same advantage as CG-7, but with 135° angle.

CG-32

Product Code	Colors	Wing Dimension	Corner Protection	Style	Cove-base Installation/ Aluminum Insert
CG-32	◆	3"	Med.-Heavy	90° Bullnose	Yes

60
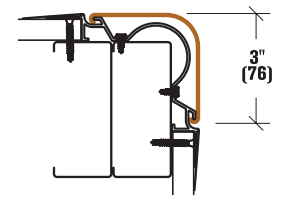

For a softer more gradual corner. The bullnose CG-32 has a 90° corner with a 15/16" radius cover. The "flex action" of the vinyl cover deflects energy and helps absorb impact.

3" (76)

## CG-888

| Product Code	Colors	Wing Dimension	Corner Protection	Style	Cove-base Installation/ Aluminum Insert
CG-888	◆	1-5/8"	Med.-Heavy	End Wall	Yes

60

This custom fabricated end wall protector can be fitted for partitions up to 7-1/4" wide. Two internal bumpers offer the impact absorption necessary for vulnerable end wall partitions.

Varies

1 5/8" (41)

FLUSH MOUNTED –1 + 2 HOUR RATED

CGF-7 CGF-72

| Product Code	Colors	Wing Dimension	Corner Protection	Style	Fire Rating when Installed	Cove-base Installation/ Aluminum Insert
CGF-7	◆	3"	Med.-Heavy	90°	1 layer dry-wall =1 hour 2 layers dry-wall = 2 hours	Yes
CGF-72	◆	2"	Med.-Heavy	90°		

60

Our flush-mounted corner guards with fire barriers will protect your corners, and help protect your patients, tenants or employees from fire, with 3" or 2" wings.

3" (76)
2" (51)

CGF-75

| Product Code	Colors	Wing Dimension	Corner Protection	Style	Fire Rating when Installed	Cove-base Installation/ Aluminum Insert
CGF-75	◆	3"	Med.-Heavy	135°	1 layer dry-wall = 1 hour 2 layers dry-wall = 2 hours	Yes

60

CG-75 offers the same advantages of CG-7, but with a 135° angle.

3" (76)

CGF-32

Product Code	Colors	Wing Dimension	Corner Protection	Style	Fire Rating when Installed	Cove-base Installation/ Aluminum Insert
CGF-32	◆	3"	Med.-Heavy	15/16" radius	1 layer dry-wall = 1 hour 2 layers dry-wall = 2 hours	Yes

60

For a softer, more gradual corner, use our bull-nose CG-32 90° corner guard with a 15/16"radius corner. The "flex action" of the vinyl cover deflects energy and helps absorb impact.

3" (76)

CGF-888

Product Code	Colors	Wing Dimension	Corner Protection	Style	Fire Rating when Installed	Cove-base Installation/ Aluminum Insert
CGF-888	◆	1-5/8"	Med.-Heavy	End Wall	1 layer dry-wall = 1 hour 2 layers dry-wall = 2 hours	Yes

60
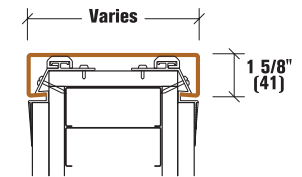

Use our continuous end wall partition cover for the same continuous wall surface look provided by all of our flush-mounted corner guards. CGF-888 is custom made to your wall dimensions, up to 7-1/4" wide, for a perfect fit.

Varies

1 5/8" (41)

5 | Door and Frame Protection

It's easy to forget how vulnerable doors and entryways are to potential damage from equipment and pedestrian traffic. Pawling's door and frame protection helps reduce costly maintenance and repairs that come as a result of normal, day-to-day abuse. Available in a virtually unlimited variety of sizes, some of these accessories can be customized to unusual or artistic shapes that further enhance your facility's décor.

RR Rapid Response **RC** Red-E-Clip **60** Standard 60 Colors ✦ Uses Recycled Materials

DFC-1

Product Code	Dimensions	Color	Material
DFC-1	Custom formed to door frame	◆	Vinyl

60

Manufactured to your custom requirements, this one-piece solid door frame guard is constructed to protect your entire door frame surface.

DFG-30

| Product Code	Dimensions	Color	Material
DFG-30	3" Wing – Height varies	◆	Vinyl
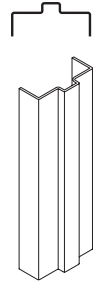

60

An aluminum retainer supports a rigid cover that affords added strength and protection. Installed with a 3" wing protection over your existing metal door frame.

PPS-16

Product Code	Dimensions	Color	Material
PPS-16	16 gauge thickness in custom width and height	#4 Satin Finish	Stainless Steel

Use 16-gauge Type 304 stainless steel push plates in areas that demand extra protection; also excellent for laboratories and medical facilities where cleanliness is an important issue. Adhesive supplied for installation; drilling optional.

KPS-16

Product Code	Dimensions	Color	Material
KPS-16	16 gauge thickness in custom width and height	#4 Satin Finish	Stainless Steel
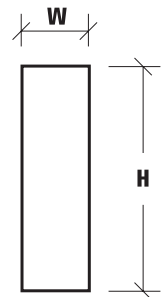

This heavy-duty kick plate, made from 16-gauge Type 304 stainless steel, is cut to your specific height and width to ensure optimum performance. Adhesive supplied for installation; drilling optional. Also available with one or two bends to wrap around and protect the door edge.

DES-190
DES-193
DES-290
DES-293

Choose the profile that suits your needs. DES-190 and DES-193 protect the edge and one side of a door; DES-290 and DES-293 wrap around to protect the edge and two sides. Type 304 stainless steel; adhesive supplied for installation (drilling optional).

6 | Equipment and Cart Bumpers

Protect more than your walls with our line of cart and equipment bumpers. Pro-Tek® protection goes the extra mile when you ensure the edges of your cart and equipment have the same safeguards as other areas of your facility. These versatile products can also be mounted on nurse stations, or retail counters and islands to protect from cart damage. Coordinate with other impact protection profiles to maintain a common theme and décor.

8 | Heavy-Duty Corner Guards

When you need maximum impact protection in your commercial or industrial environment, turn to Pawling's line of Pro-Tek® Heavy-Duty Corner Guards. Protect columns in a retail environment and corners in your parking garage or storage facility. Whether it's loading docks, warehouses or in-plant offices that need protection, our Heavy-Duty Corner Guards will complete your design in a variety of wing sizes and colors.

RR Rapid Response   **RC** Red-E-Clip   **60** Standard 60 Colors   ✛ Uses Recycled Materials

---

CG-1

Product Code	Colors	Material	Wing Size	Recommended Mounting	Interior/Exterior
CG-1	Gray	Natural Rubber	4-7/8"	Adhesive or Mechanical Fasteners	Both

CG-1's natural rubber blend provides high-impact resistance in a non-marking material. Available in lengths from 4'to 12', our most popular heavy-duty corner guard can be used in any application, inside or out.

4 7/8" (124)

7/8" (22)

CG-2
CG-2E

Product Code	Colors	Material	Wing Size	Recommended Mounting	Interior/Exterior
CG-2	Black	SBR Rubber	4-5/8"	Adhesive or Mechanical Fasteners	Interior
CG-2E	Black	EPDM Rubber	4-5/8"	Mechanical Fasteners	Both

Available in SBR rubber (CG-2) or EPDM rubber (CG-2E), these 4-5/8" wing corner guards offer durable protection in different environments. Use CG-2 for interior installations, while CG-2E is perfect for interior or exterior environments.

4 5/8" (117)

5/8" (16)

CG-3

Product Code	Colors	Material	Wing Size	Recommended Mounting	Interior/Exterior
CG-3	Black, Ivory, Tan, Brown, Gray, Yellow, Polar White	Flexible Vinyl	2-1/2"	Adhesive	Both

CG-3 combines the reduced cost of flexible vinyl with a variety of color options to handle all kinds of heavy-duty impact protection applications.

2 1/2" (64)

CG-4

Product Code	Colors	Material	Wing Size	Recommended Mounting	Interior/ Exterior
CG-4	Black	EPDM Rubber/ Galvanized Steel	3-3/8"	Mechanical Fasteners in Galvanized Steel Retainer	Both

This new design combines the durability and impact resistance of EPDM rubber with the convenience of a retainer/snap-on-cover installation. The 3-3/8" wing style comes with black urethane end caps for a finished appearance. The galvanized steel retainer makes CG-4 perfect for inside or outside.

3 3/8" (86)

11/16" (17)

CG-5

| Product Code	Colors	Material	Wing Size	Recommended Mounting	Interior/ Exterior
CG-5	Gray	Natural Rubber	4-3/4"	Adhesive or Mechanical Fasteners	Both

Another natural rubber blend corner guard this time in a 4-3/4" wing size. CG-5 features a non-marking gray color and special chamfered corners in either 4' or 8' lengths.

4 3/4" (121)

3/4" (19)

CG-9

Product Code	Colors	Material	Wing Size	Recommended Mounting	Interior/ Exterior
CG-9	Black, Ivory, Tan, Brown, Gray, Yellow, Polar White	Flexible Vinyl	1-3/4"	Adhesive	Both
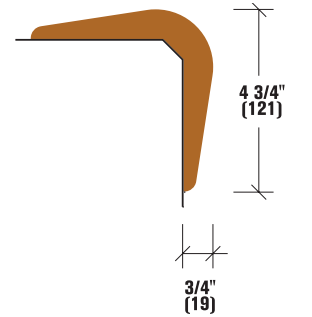

CG-9 is our smallest and most inexpensive flexible vinyl corner guard, and is available in a seven different colors.

1 3/4" (44)

1/4" (6)

CG-15

Product Code	Colors	Material	Wing Size	Recommended Mounting	Interior/ Exterior
CG-15	Black, Tan, Brown, Gray Safety Yellow	Flexible Vinyl	4"	Adhesive	Both

Our largest flexible vinyl heavy-duty corner guard, the CG-15 has a 4" wing and provides durable protection for both interior and exterior installations.

4" (102)

3/8" (10)

9 | Environmental Commitment

Pawling Corporation has its roots in the historic Harlem Valley Region of New York State. With the abundance of natural beauty surrounding our facilities in Wassaic and Pawling, New York, our responsibility to the planet and those we share it with is evident to us every day. Our company is committed to providing top quality architectural products that positively influence our customers, their projects and the environment we all share. We embrace this sense of stewardship and encourage those we work with to do the same.

Our products contribute to several categories for LEED Certification, including credits 4.1, 4.2, 5.1 and 5.2.

Here are some examples of our commitment in action:

1. Within our facility, we recycle cardboard, paper, scrap metals, aluminum, glass and plastic products.

2. Our Vinyl Recycling Program allows customers to return used vinyl to us during their renovation or demolition projects.

3. We strive to use recycled content in the manufacturing of our products:

• Our line of Pro•Tek Earth™ wall guards is made from 100% post-consumer recycled HDPE such as milk bottles, water bottles, and detergent containers.

• All of the aluminum furnished with our products is manufactured from no less than 70% recycled aluminum.

• All of our products containing stainless steel are manufactured from approximately 33% post-industrial and 59% post-consumer recycled content.

• Our Dura-Tile rubber tiles are made from 100% recycled tire materials.

• Our Parking Blocks and Speed Bumps are made from 100% post-consumer/post-industrial recycled material.

4. Our Interlok® Rubber Tiles contain NONE of the following materials: heavy metals (lead, antimony, arsenic, barium, chromium, etc.), halogens (chlorine, bromine, fluorine, CFCs, iodine), plasticizers monomers, formaldehyde, or asbestos. In addition, our tiles are loose laid and require no adhesive, resulting in zero outgassing of VOCs. Finally, our athletic tiles are free from toxic compounds that are harmful to the environment, so they may be recycled after their useful life or may be disposed of as solid urban waste.

5. Our ADH-60 wall covering adhesive has a VOC content of less than 5 grams per liter. Our ADH-30 wall covering adhesive has 77 grams of VOC per litre, less water and exempt solvents. Both of these are in compliance with Rule #1168 for contact adhesives and/or specialty contact adhesives.

PVC products are sustainable as well as easily recycled. In addition, they consume less fossil fuel and raw materials to create than other alternatives and therefore represent a lower life cycle cost alternative to other impact protection options. We continue to develop environmentally-friendly alternatives for our customers to provide for their needs in all aspects of their facilities.

10 | Rapid Response

Your planner forgot five corner guards in your project. Ten feet of wall guard needs replacement in the pediatric wing. You didn't think you'd need a handrail in that hallway, but now you realize you do. When you need almost instant wall protection, think Pawling and our Rapid Response program. We ship it in Three days—or it's free! That's right—we'll ship you any item in our Rapid Response program within three days or you don't pay a penny. Just look for the **RR** icon on our hand rails, corner guards, wall guards and sheet wall covering available in eight of our most popular colors. It's our guarantee and proof that we want to meet and exceed your expectations.

Available Colors

We've increased your Rapid Response options by adding profiles, increasing the maximum order for wall covering, and offering more colors. Rapid Response profiles now come in eight popular colors:

301	370	313	2
LINEN WHITE	EGGSHELL	CHAMPAGNE	IVORY

3	210	377	265
TAN	SILVER GRAY	TEAL	WINDSOR BLUE

Need it quick?

That's what Rapid Response is for—contact your Pawling representative today for more information or log on to www.pawling.com.

  Type of Vehicle

Vehicular traffic poses a myriad of problems and concerns for many types of facilities. Pawling Corporation's line of heavy-duty impact protection products and vehicle control accessories addresses these hazards by making your environment safer for vehicles and people, not to mention extending the life of your facility, and reducing costly repair and maintenance problems. Pro-Tek® products are designed to safeguard walls, corners, and columns exposed to vehicular traffic, and to control vehicle movement to reduce the incidence of personal injury to employees, customers, and pedestrians.

Minimizing damage to vehicles and people can also mean reducing insurance claims and liability policy premiums. A safer environment for employees can result in lower disability claims and insurance costs, as well as a reduction in lost-time accidents. Whether it be a loading dock, warehouse, manufacturing plant, transportation terminal, distribution center, airport ground support area, parking garage or parking lot, service corridors, or even boating marinas, Pro-Tek® has the answers to your vehicular traffic problems.

Tell us what your impact protection and vehicle control issues are, and let us suggest a comprehensive system utilizing Pro-Tek® products to protect your facility, vehicles, and people. See for yourself the difference that Pro-Tek® products can make.

RUBBER WHEEL CHOCKS & WEDGES

|	Product Code	Color	Weight	Description	
SC-10	SC-10	Black	9 lbs./Ea.	• Molded from tough nylon-reinforced rubber compound. • Economical and long wearing. • Recommended for use with heavy trucks/trailers and road equipment. • Integral eye bolt for attaching chain.	6 1/4" (159) 7 3/4" (197)
SC-13	SC-13	Black	9 lbs./Ea.	• Same wheel chock as Style SC-10, but with convenient metal "U"-bolt for carrying ease. • Recommended wherever frequent handling is required.	7 3/4" (197) 3 11/16" (94)
SC-2	SC-2	Black Safety Yellow	9 lbs./lin.Ft.	• All purpose style suitable for aircraft and medium sized trucks. • EPDM rubber compound offers outstanding weathering characteristics and resistance to petroleum fuels, including jet fuel. • High visibility orange hi-lite strips on 2 sides. • Custom lengths up to 12'0".	6" (152) 6" (152)
SC-7	SC-7	Black Safety Yellow	7.5 lbs./lin.Ft. 9 lbs./lin.Ft.	• Versatile design for use with trucks, aircraft, large pipe, and recreational vehicles, and at most industrial dock locations. • EPDM rubber compound offers outstanding weathering characteristics and resistance to petroleum fuels, including jet fuel. • Custom lengths up to 12'0".	4 1/2" (114) 5" (127)
SC-3	SC-3	Black	14 lbs./Ea.	• Laminated recycled tire rubber pads assembled on 3/4" (19.1mm) bolts and compressed between 1/4" (6.35mm) steel plates • Positive grip—contoured to fit curvature of tire. • Ideal for heavy utility trucks and equipment, large cable rolls and buses.	8" (203) 8" (203)
